

1RU HIGH DENSITY BREAKOUT CASSETTE ENCLOSURE

Part #: F1-RM1RU3XHD
Shown with (3) HD Cassettes Installed
Front & Rear Doors Not Pictured

FEATURES

- Compact, Cassette Based Enclosure
- 1RU Enclosure Accepts (3) HD Breakout Cassettes
- Up to 144 Fibers in a 1RU Enclosure
- Variety of HD Breakout Cassette Configurations
- Enclosure Accommodates Standard 19" Rack
- Manufactured in USA

The High Density Breakout Cassette, 1RU Enclosure provides a high density 'plug and play' solution within data center infrastructure. It offers a secure breakout point from multi-fiber MPO trunk cables to duplex LC patch cables. This modular platform provides a convenient, rapid deployment solution when installing MPO trunk cables and breakout positions within a network. Install up to (3) HD Breakout Cassettes for a total of 144 fibers loaded in the 1RU enclosure.

The enclosure is designed to fit into standard 19" racks. Mounting adapter brackets extend out past the front and back of the enclosure to assist with incoming fiber management. A fiber lacing bar is also included along the back of the enclosure to route fibers. Both front and rear doors are easily removable and provide uninhibited access to the cassette's fiber connections.

SPECIFICATIONS

Dimensions (With Mounting Brackets)	17.00" L x 18"W x 1.70"H
Weight (Empty)	4.0 lbs
Material	.095" C.R. Steel & .064" Aluminum
Coating & Color	Beige, Electro Statically Applied Powder Coat
Capacity	(3) HD Breakout Cassettes
Rack Size	19" Telco Rack
