

FIS INTELLIGENT TRANSPORTATION SYSTEM (ITS) CABINET ENCLOSURE

FEATURES

- Fixed Adapter Plate Mounting Bracket
- Reversible Cable Management Bracket
- Removable Lid
- Corning Fan-out Kit Strain Relief Bracket
- Gap for Storing Excess Cordage
- Mounts to standard 19" Racks

The FIS Intelligent Transportation System (ITS) Cabinet Enclosures come in 2, 4, & 6RU footprints. These flush mount, rack mountable enclosures are specifically geared for ITS (Intelligent Transportation Systems) roadside cabinets, or Computer Room enclosed type cabinets, where the 19" equipment mounting rail, is too close to the door for any protrusion.

Key features include the reversible cable manager and rear exit, a fully removable lid and a fixed adapter plate and tray which allows storage space for excess cable. These features make a perfect solution for installing a pre-terminated outside plant trunk cable. Enclosures are available in black upon request. It accommodates FIS extended adapter plates.*

It's recommended to have enclosures loaded with pre-terminated trunk cables at FIS prior to shipping. Ask your sales representative for more information.

*Extended footprint is 6.12"(L) x 1.37"(W)

SPECIFICATIONS

Capacity	2RU - 4 Plates 4RU - 8 Plates 6RU - 12 Plates
