

Installing USB Scope/Probe on Windows7 PC

NOTE: Before you attach the USB Scope or Probe to your PC you must install the following Win7 drivers.

- Unzip the [USB-AVCPTSetup-For-Win7.zip](#) file.
1. Open the downloaded or installed zip file and double click the “setup.exe” file. A restart will be required after installation.
 2. After the PC restarts, they will need to locate the setup.exe program in the following location:
 3. (CD Drive): EasyCAP_DC60\Program\UVS10\setup.exe”
 4. Right click on the setup.exe and select “Properties”.
 5. Click on the “Compatibility” tab and select the check box for “Run this program in compatibility mode for:” and select Windows XP (Service Pack 3). Click “Apply”.
 6. Double click the “Setup.exe” program to install. After installation, another restart will be required.
 7. When the PC has restarted, plug the USB Probe into an open USB port.
 8. Locate and run the newly installed Ulead VideoStudio SE DVD program on the PC.
 9. Select “VideoStudio Editor” from the popup menu.
 10. Once the program has started, click the “Capture” tab at the top of the screen.
 11. Select “Capture Video” from the right hand side of the screen.
 12. From the “Source” dropdown menu, select “USB2.0 ATV”
 13. The live image from the probe will be displayed in the video window. At this point either live video or Still images can be captured from the probe using the buttons on the right side of the screen.
