

## FIS Blue Basic SMPTE Cleaning & Tool Kit

### Key Features:

FIS Blue is a worldwide leader in fiber optic technology. Through decades of servicing customers, FIS Blue has created a series of kits specific to the needs of field technicians. All kits include an array of hand tools and cleaning supplies. There are also deluxe and testing kits available for all styles of Broadcast and Military connectors. All FIS Blue kits are non-hazmat and can ship air.

FIS Blue's Basic SMPTE Tool & Cleaning Kit include all the items needed to properly clean and maintain SMPTE connectors, plus the standard ST/FC/SC/LC type connectors. In addition there are some basic tools for maintaining and working with the connectors.
