

Part #: F1-6710

Part #: F1-6711

FEATURES

- Pen Type
- Over 500 wipes
- Cleaning Cost Save
- Used advanced cleaning fabric
- Easy and Simple and Pocket Portable
- Any customer size ferrule/stub available like Transceiver, LEMO, E2000.....

The FIS Rotoswipe ferrule cleaner is convenient for cleaning connector endfaces from inside bulkheads or mating sleeves without removing connector from the back panel. Simply choose from the 2.5 or 1.25mm ferrule version, insert into the mating sleeve until cleaning tip with fabric gently touches the ferrule endface, then turn the gray rotator dial 2-3 clicks clockwise. Inspect for cleanliness if desired with a video microscope. You can utilize this cleaner to clean patchcord endfaces as well, but you need to use it with an individual mating sleeve to plug ferrule into something for cleaning tip to align properly. No refill cartridges available.
